About S.R.K.R. Engineering College (A) and Department of Mechanical Engineering

Sagi Rama Krishnam Raju Engineering College is a co-educational and self-Financing Engineering College. It is one of the oldest seminaries formed in 1980 to provide quality technical education. The College is housed on a land of 30 acres amidst of green paddy fields located in Chinna-Amiram village just 3km. away from Bhimavaram town, which is well known as “**SECOND BARDOLI**” and is famous for one of the **Pancharamakshetras (Somaramam)** of Lord Shiva Temple. The College stands among the top 5 private Engineering Colleges of Andhra Pradesh for Quality Education.

The B.Tech. Programme in Mechanical Engineering has come into existence since inception of the college with present intake of 240 students. It is housed in an independent building with an area of 4240 Sqm. It is one of the strongest programmes of the institute. The Department consists of well qualified and experienced faculty with fully equipped laboratories. The Department is also offering P.G. course in CAD/CAM. which organizes co-curricular and extra-curricular activities. Department of Mechanical Engineering is recognized as one of the Research centres.

Vision and Mission

VISION:

Mechanical Engineering Department strives to be recognized globally for quality education, training and research leading to well-qualified engineers, who are innovative, entrepreneurial and successful in solving problems of society.

MISSION:

- Impart quality education to students to enhance their skills and make them globally competitive.
- Maintain a vital and state-of-the-art research to provide its students and faculty with opportunities to create, interpret, apply and disseminate knowledge.
- Prepare its graduates to pursue higher studies, serve the profession and meet intellectual, ethical and career challenges.

Outreached Activity report Prajna Event

The students of Mechanical Engineering Department of S.R.K.R Engineering College conducted a Scientific Exhibition on 26-03-2022 at Mandal Parishad Upper Primary School, Kallakuru to displaying and explaining the process, design and working of various models. The school students felt very happy and stated that the event helped them a lot to enhance their ideas, knowledge in science and Technology.

3D PRINTING WORKSHOP

3D Printing is an Additive Manufacturing technique that creates a physical object from a virtual 3D CAD model by depositing successive layers of material. They work like the traditional inkjet printers, but instead of ink, a 3D printer deposits desired material to manufacture an object from its digital format. 3D printing and rapid prototyping, in general, are widely claimed to have revolutionized not only the manufacturing industry but also many other walks of life like medicine, aerospace and automotive industry. This program on 3D Printing helps the participants understand the design, functioning and operation of a basic 3D Printer.

**About S.R.K.R. Engineering College (A)
and Department of Mechanical Engineering**

Sagi Rama Krishnam Raju Engineering College, is a co-educational and self Financing

Engineering College. It is one of the oldest seminaries formed in 1980 to provide quality technical education. The College is housed on a land of 30 acres amidst of green paddy fields located in Chinna-Amiram village just 3km. away from Bhimavaram town, which is well known as "SECOND BARDOLI" and is famous for one of the Pancharamakshetras (Somaramam) of Lord Shiva Temple. The College stands among the top 5 private Engineering Colleges of Andhra Pradesh for Quality Education. The college is permanently affiliated to JNTUK, Kakinada, recognized by the AICTE, New Delhi and also obtained grant-in-aid status from UGC.

The B.Tech. programme in Mechanical Engineering has come into existence since inception of the college with present intake of 240 students. It is housed in an independent building with an area of 4240 Sqm. It is one of the strongest programmes of the institute. The Department consists of well qualified and experienced faculty with fully equipped laboratories. The Department is also offering P.G. course in CAD/CAM. The undergraduate course is accredited by the NBA. The Department has also a wing called Association of Mechanical Engineering Students (AMES) which organizes co-curricular and extra-curricular activities. Department of Mechanical Engineering is recognized as one of the Research centres by JNTUK, Kakinada.

Preamble Objectives

- To acquaint the students with graphics user interface of CATIA V5

- To train the students to draw 2D sketches using CATIA
- To model 3D parts using CATIA
- To gain the knowledge on assembly module in CATIA software

Topics to be discussed

2D, 3D, Assembly Modelling.

Eligibility

For all the polytechnic students

CATIA WORKSHOP

CATIA is a Modeling tools can gain insight into key factors of quality and performance early in the product development phase. Digital prototyping, combined with digital analysis and simulation, allows product development teams to virtually create and analyze a mechanical product in its operating environment. Catia 2D & 3D modeling and Assembly in general, are widely claimed to have revolutionized not only the manufacturing industry but also many other walks of life like medicine, aerospace and automotive industry. This program on Catia helps the participants understand the sketch, modelling, design and assembly.

Outreached Activity Report

The outreach activity of this one-week training programme on CATIA Workshop organized by Mechanical Engineering Department held from 9th and 14th of May 2022 educated the eminent ideas and skills in 2D and 3D modelling & assembly educating the students on the emerging technologies in the field of Mechanical Engineering, which helps them for the better articulation of future research.

Outreach of the program Sampling Planation

The students of Mechanical Engineering Department participated in the program Tree Planation organized by Department of Mechanical Engineering to create awareness among students about the importance of planting trees to protect the environment against air pollution and global warming. The students participated enthusiastically and expressed that they felt happy developing sensitivity to reducing global warming
