Sir,

Sub: Request to carry out compressive strength tests - Reg.

We, M/s SKC India LLP, Flat No. 407, SLV Yamunotri Towers, A.S.R. Nagar, Bhimavaram, are principal contractor for construction of the housing project named as *FLORENZA* located near West Berry High School, Upparagudem road, Pedamiram, Kalla mandal, West Godavari dist., A.P. being developed by M/s Keystones Infra ventures India Pvt Ltd., and commenced the project activities.

In this regard, we would like to request you to kindly arrange to test on chargeable basis and provide us the report for concrete cubes to find out the compressive strength. The concrete cubes to be tested shall be submitted by us.

Details of specimen:

Speciman size: 150 mm cube

Location: Villa No.60, RAFT CONCRETE

Grade of concrete: M20

Date of pouring: 22-3-2017

The charges to conduct 2 sets of cube (total six numbers) tests including taxes shall be paid by us.

It is requested to kindly conduct the tests and provide the report, at the earliest possible.

Thanking you

For M/s SKC India LLP

**Lr.No. BN Road 18/8 Bridge /QC/Mix design/ AEE/MGLTR/2017, Dt.13.07.2017**

Job: Re-Construction of HLB across Gontheru drain in Km 18/8 of Bhimavaram -  
Narsapur Road in West Godavari District.

Sub: - Mix Designs for M15, M30, M35, M40 Grade concrete

Dear Sir,

We are sending the following materials for the mix design of various grades of concrete as detailed below.

- 6) M-35 grade which will be used in bored cast-in-situ piles using 20mm MSA with minimum cement content of 440.00 Kg/cum.
- 7) M-35 grade which will be used in Pile caps, Abutment walls, Abutment caps, Dirt walls, Piers & Bearing pedestals using 20mm MSA with minimum cement content of 440.00 Kg/cum.
- 8) M-30 grade which will be used in T- Beam Girders, Slabs, Approach slab using 20 mm MSA with cement content of 406.67 Kg/cum.
- 9) M-40 grade which will be used in RCC Crash barrier using 20 mm MSA with cement content of 430.0 Kg/cum.
- 10) M-15 grade which will be used Under approach slab & Under Pile caps using 40 mm MSA with cement content of 275.33 Kg/cum.

The mix prepared should be strictly in accordance with the relevant clauses of MoSRT&H specifications, target mean strength to be taken from table 1700-5 of MoSRT&H

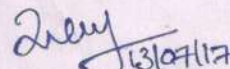

- Cement : Anjani OPC 53 grade
- Coarse Aggregate : 40mm, 20mm & 10mm.
- Fine Aggregate : Confirming to Zone-2
- Admixture : Fosroc SP 430

You are requested to conduct the mix design and send the report at the earliest.

Requisite payment will be remitted by the contractor towards above all the tests.

Thanking you,

Yours faithfully,
