Name of the Student: A. Bhaskar

Register Number: 21B91AG101

Year & Branch: 1/4 AIML

Mobile Number: 7997194397

Put (Tick: ✓)

S.No	Questions	Below Average	Average	Good	Very Good	Excellent
01	How do you rate the course sequence in your B.tech/M.tech programme?				✓	
02	How do you rate the syllabus of the courses you have taken in relation to the competencies expected of you?				✓	
03	How do you rate the relevance of the Syllabus units to the course?				✓	
04	How do you rate the course's unit sequence?				✓	
05	How do you rate the distribution of contact hours across course components?				✓	
06	How do you rate the electives offered in relation to the specializations?			✓		
07	How do you rate the electives offered in relation to the technology advancements?				✓	
08	How do you rate the percentage of courses involving laboratory components?					✓
09	How do you rate the relevance of laboratory experiments to the real-life application?			✓		
10	Evaluate the size of the syllabus in terms of the student load			✓		

**Any suggestions to improve the programme curriculum in SRKREC:**

1. Need advanced technology.
- 2.

S.No	Questions	Below Average	Average	Good	Very Good	Excellent
01	How do you rate our courses that can meet the vision and mission statements of our college?				✓	
02	Aims and objectives of the curriculum are well defined and clear to teachers and students?				✓	
03	The course/syllabus has a good balance between theory and laboratories.					✓
04	The courses have enough contact hours to teach.				✓	
05	The course/syllabus of this subject increased my knowledge and perspective in the respective subject.				✓	
06	The Course/Program of studies carries enough optional subjects.				✓	
07	The books prescribed/listed as reference materials are relevant, updated, and appropriate.				✓	

Any suggestions to improve the programme curriculum in SRKREC:

1. Curriculum is good.
- 2.

Put (Tick: ✓)

S.No	Questions	Below Average	Average	Good	Very Good	Excellent
01	Rate your ability to apply knowledge and technical skills so as to carry out tasks in the engineering field as and when required by the job specifications?				✓	
02	To what extent you are able to identify and define computing requirements for a given problem which are appropriate to industrial needs?				✓	
03	To what extent you are able to contribute in design and development of appropriate solutions for the identified problems?				✓	
04	Rate your ability to integrate knowledge acquired to provide optimal solution for research problems in social welfare activities.			✓		
05	At what extent the modern technologies, processes, and software tools have impact on professional engineering solutions in terms of environmental context to get sustainable solution?				✓	
06	Rate your ability to understand the social and global issues to be considered while providing engineering solutions?					✓
07	Do you follow professional and ethical code of conduct to perform a given task? Can you rate?					✓
08	Rate your participation in collaborative projects / working groups in your workplace to meet common goals?					✓
09	Rate your ability to communicate effectively with peers, superiors, subordinates, clients and other stakeholders				✓	
10	Rate your ability to integrate engineering and management principles for implementation of the projects?				✓	
11	Rate your participation in any conferences/training programmes in your field to upgrade your skills?					✓
12	How do you find the curriculum of our college with respect to industry requirements				✓	

Any suggestions to improve the programme curriculum in SRKREC:

1. I suggest that it would be better if they (students)
2. have both theoretical and practical knowledge of what they are learning

## **Feedback Analysis 2021-22 (B.Tech)**

The feedback is obtained from Students, Alumni, Faculty and Employers after seeing the feedbacks, some of the common points written in feedbacks are summarised as below

1. More design courses are to be introduced in the curriculum.
2. Providing lecture through power point presentation and live videos so that the concept is easily understandable.
3. Syllabus of gate can be covered entirely in the curriculum.
4. Industry interaction labs are to be included in the curriculum.
5. Sports should be a priority for students for the benefit of their physical and mental health.
6. More field visits should be planned so that the students will get optimum benefit.
7. More software and core placements should be a priority.
8. There should be additional courses like personality development and yoga classes as a course for the benefit of students.
9. To include basic coding classes as curriculum that will be helpful for employability.
10. Industrial training should be included in the curriculum
11. Subjects related to entrepreneurship should be included in the curriculum.

### **Feedbacks Action Taken Report 2021-22 (B.Tech)**

The feedback analysis has been discussed in the department on 14-09-2022 with faculty members. It was decided to recommend the suggestions for BOS.

The following are the recommendations to BOS:

1. Employability related courses are to be introduced in the curriculum.
2. Basic coding skills are required as part of curriculum.
3. Industry exposure for the students is required in addition to academics.

### **Feedback Analysis 2021-2022(AIML - B.Tech.)**

Feedback on the curriculum is obtained from students and faculty. We have received feedback from 71 members. After analyzing the feedback, some important opinions are identified.

The following are the key points found in feedback:

1. Advanced programming subjects should be included in the curriculum.
2. Extra-curricular activities need to be included in the curriculum.
3. Include high end labs and systems with advanced configurations.
4. Need more concentration on communication skills.

**Feedback Action Taken Report 2021-2022 (B.Tech. AIML,CSD, CIC)**

The members of the Board of studies discussed the feedback analysis reports in the meeting which was held on 21/07/2022. As per the resolutions made by the committee, a few suggestions were given to the academic council based on the feedback analysis, for the improvement of curriculum of the department.

The following are the suggestions given to the academic council:

1. Latest technologies like Mobile application development, NLP with python and Full stack web application development, Statistical methods using R should be included in the curriculum.
2. English proficiency need to be included in the curriculum to improve communication skills.
3. Skill oriented courses like Multimedia and graphics design, Game development, Data science and statistical methods need to be introduced in the curriculum.

The members of the Board of studies discussed the feedback analysis reports in the meeting which was held on 30/06/2022. As per the resolutions made by the committee, a few suggestions were given to the academic council based on the feedback analysis, for the improvement of curriculum of the department.

The following are the suggestions given to the academic council:

1. Duration of project work for 4<sup>th</sup> year B.Tech., has to be increased.
2. Skill oriented courses like soft skills, MEAN stack technologies and data structures need to be included in the curriculum.
3. As suggested by National Educational Council inter disciplinary course should be included in the curriculum.

## **Feedback Analysis 2021-2022**

Feedback on the curriculum is obtained from employers, faculty, alumni students and parents. After study of feedback from various stakeholders some important points have been identified. The following are the key points obtained from various stakeholders.

1. Skill oriented subjects like Instruments and Measurements, antenna related software need to be introduced.
2. Encourage students to explore technological fields like Web Technologies and Smart Sensors Design.
3. Subjects related to testing and testability need to be introduced.
4. Industrial experience is required for students to attain practical knowledge.
5. Train the students to improve aptitude, communication and programming skills for industrial needs.
6. Need to train students for examinations like GATE and GRE.
7. Courses enhancing employability opportunities are to be included in the syllabus.

## Feedback action taken report 2021-2022

The Department Advisory Committee (DAC) reviewed and discussed the feedback reports in the DAC meeting held on 24-09-2021 and it has been resolved to recommend some suggestions to the Board of Studies and Training and Placement Cell based on the feedback analysis.

The following are the suggestions recommended to Board of Studies:

1. MPMC syllabus is vast, slight modifications are made.
2. Subjects like Web technologies must be made available to the students as optional subjects.
3. Skill based courses like Testing and Testability need to be accommodated within the curriculum.
4. Remove PP in soft computing techniques and add it as a core subject in the syllabus.

The following are the suggestions recommended to Training and Placement Cell.

1. Train the students to improve aptitude, communication and programming skills for industrial needs.

**Summary on feedback analysis for academic year 2021-2022 (B.Tech.)**

A feedback on the curriculum is obtained from stakeholders. After a study of all the feedbacks from various stakeholders, some important suggestions are identified and listed below. The following are the key points taken from the feedbacks:

1. Need to improve extracurricular activities for students.
2. Take necessary action to improve Coding / Programming skills of the students.
3. Need to take special care about the students who faced some difficulties due to online classes and have backlogs during Covid in 2020-21.
4. Take necessary action to improve Communication skills of the students.
5. Need to include useful courses for the students as per job requirements.
6. Need to conduct Parents meeting frequently.
7. Need to conduct GATE classes for interested students.
8. Need to encourage the students to develop entrepreneurship skills.
9. Need to bring out the students best in terms of entrepreneurs and starting start-up ideas.

**Feedback action taken Report for Academic Year 2021-2022 (B.Tech.)**

In the Department meeting held on 24-09-2021, all the faculty members have discussed on feedback analysis report. In this meeting it is resolved to recommend a few suggestions to the Board of studies (BOS).

The following are the suggestions recommended to BOS:

1. Suggested to add 8086 Microprocessor to the syllabus of Microprocessors and Microcontrollers.
2. Suggested to add advanced applications of power electronic converters into the lab courses.
3. Suggested to change the syllabus content of Electrical Estimation and costing.
4. Suggested to reduce the content of Wind Energy Conversion Systems syllabus in solar and wind energy systems.
5. Suggested to change the content of Minor degree course Electrical Circuit Analysis.
6. Suggested to have skill related courses.

## **FEEDBACK ANALYSIS 2021-22**

A Feedback on the curriculum is obtained from students, employers, faculty and alumni. After study of the feedback from various stake holders some important points of the feedback are identified. Total 190 feedback forms have been obtained from various stake holders.

The following are the key points obtained from the study of the feedback:

1. The department needs to connect with the industries and understand the latest methods such as Block chain Technology, Biometrics, Quantum computing.
2. Include more elective for inter disciplinary projects.
3. Provide advanced labs like AI, IOT, and ML in information technology field.
4. More skill-oriented courses like web services, cloud computing, data science may be included in curriculum.

## **FEED BACK ACTION REPORT 2021-22**

The department Advisory Committee (DAC) has discussed in the feedback analysis report during the meeting DAC held on 12-9-2022. In the meeting it has been resolved to recommend some suggestions to the Board of study and the Training and the placement cell based on the feedback analysis.

The following are the suggestions recommended to Board of Studies for next regulation:

1. New technologies like Block chain Technologies, Biometrics , soft computing should be incorporated in curriculum.
2. More hands on are needed for emerging technologies.
3. The students should certify in more number of value added courses.

The following are the suggestions to training and placement cell:

1. Placement training is required with more focus on interviews for high package MNC.
2. Building student aptitude and English grammar is also required for students for improved placements.

**Action taken report.**

Tenth Board of studies meeting in blended Mode (Both offline and virtual using zoom platform) was held on 25-06-2022 (Saturday) in CAD Lab-2 of Mechanical Engineering Department at 2:00 P.M. in order to discuss the following items:

- (1) Discussion and Finalization of course structure and syllabus of 4/4 B.Tech. Mechanical Engineering program under R19 Regulations.
- (2) Discussion and Finalization of course structure and syllabus of 3/4 B.Tech. Mechanical Engineering program under R20 Regulations.

## MINUTES OF THE MEETING RESOLUTIONS

- (1) Feed Backs collected from various stake holders like students, Alumni, Employers and parents has been discussed while designing the course structure and syllabus for 3/4 B.Tech. (R20) and 4/4 B.Tech (R19) Mechanical Engineering program.
- (2) One of the Bos Members Dr. M. Kumara Swamy, Associate Professor, Dept. of Mech. Engg, JNTUK, suggested to add the Manual part programming in CAM Section of CAD/CAM Course.
- (3) Resolved to offer Program Elective - III and program Elective - IV with 3 courses along with Mooc-III & Mooc-IV in Each Elective Course and Open-Elective-I in First Semester for 4/4 B.Tech Mechanical Engineering program under R19 Regulations.
- (4) Resolved to offer Open-Elective - III in Second Semester for 4/4 B.Tech Mechanical Engineering program under R19 Regulations.
- (5) Resolved to offer project work - I in First Semester and project work - II in Second Semester for 4/4 B.Tech Mechanical Engineering program under R19 Regulations.
- (6) Finalized the Course Structure and Syllabus for the 4/4 B.Tech (R19) Mechanical Engg. program.
- (7) one of the Bos Members, Dr. G. Ravi Kiran Sasthy Professor, Dept. of Mech Engg. NIT AP suggested to incorporate Micro mechanics and Macro Mechanics of Lamina in Unit - V of Composite Materials Course which is a programs elective course for 4/4 B.Tech Mechanical Engg. program under R20 Regulations.
- (8) Resolved to offer the following Skill Oriented Courses for 3/4 B.Tech (R20) Mech Engg. program.

S.NO.	Course name	Credits	Semester
1	Pythons programming	2	First
2	Soft skills	2	Second

(9) Resolved to offer the following courses in addition to Regular Courses for 3/4 B.Tech (R20) Mech. Engg. program

S.NO.	Course Name	Semester
1	Employability Skills.	First
2	Gender Sensitization	Second

(10) Resolved to offer professional Elective - I with 3 courses as options along with MOOCs - I and Open Elective - I in First Semester for 3/4 B.Tech Mechanical Engineering program under R20 Regulation.

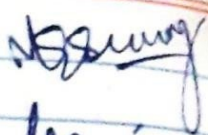

(11) Resolved to offer Summer Internship and Community Service project in the First Semester for 3/4 B.Tech. Mech. Engg. program under R20 Regulation.

(12) Resolved to offer professional Elective - II with 3 courses as options along with MOOCs - II and open Elective - II in the second Semester for 3/4 B.Tech. Mechanical Engineering program under R20 Regulation.

(13) Finalized the course structure and Syllabus for the 3/4 B.Tech (R20) Mechanical Engg. program.

## Feedback Analysis 2021-22

Feedback on the curriculum is obtained from students, employers, faculty, and alumni. After study of the feedback form various stake holders some important points of the feedback are identified. Total 308 feedback forms have been obtained from various stake holders.

The following are the key points obtained from the study of the feedback:

1. Students need industrial more exposure.
2. Digital classrooms are required for better understanding of the subjects.
3. The experiments in labs need to be updated so that they are more relevant to present industrial needs.
4. More coding classes are required for mechanical engineering students.
5. Digital library is needed for the students
6. Modern teaching methods are to be incorporated for effective teaching.
7. Course like AI, Robotics, machine learning and data analytics need to be included in the curriculum of mechanical engineering students.
8. Courses should be designed at par with present industry needs.
9. Need more IT related courses for the better placement opportunities to students.
10. Need more elective courses with updated syllabus
11. Include course on Python in curriculum
12. Introduce software courses in every semester
13. Industrial tours are required
14. Put more programming courses as elective subjects

## **Feedback Action taken report 2021-22**

The department advisory committee (DAC) has discussed the feed analysis report during the meeting DAC held on 16/0/2022. In the meeting it has been resolved to recommend some suggestions to the Board of study.

The following are the suggestions recommended to Board of studies:

1. A lab on Python may be added for benefit of student for their placements
2. A course related to Robotics need to be added in curriculum
3. More number of elective subjects are to be added in the course structure.
